

GATCPAC

Josep Torres Clavé. 1931
Floor Lamps

SANTA & COLE

Torres Clavé was a founding member of GATCPAC, a Group of Catalan Architects and Technicians for the Progress of Contemporary Architecture, in line with European avant-garde currents, particularly rationalism. The revolutionary architect, along with his companions Josep Lluís Sert and Joan Baptista Subirana, designed the GATCPAC lamp as a gift in the buildings they erected; a sort of collective signature.

Santa & Cole is reediting the lamp according to Torres Clavé's plans, thought to be the first and the original lamp of the many variations the group produced. The GATCPAC floor lamp is elevated on a tall, polished aluminium base, with an adjustable dome shade that can be directed upwards for indirect light or tilted to cast a more direct beam. Like a spotlight, that adapts to the user's needs. Perfectly contemporary, more than 90 years after its creation.

General description:

Polished aluminium structure with orientable lampshade.
Electric cable length: 4 m / 157.5"

Approximate weight (unpacked):

11,3 kg / 24.9 lb

Technical information:

European version: Light source included (dimnable)
American version: Recommended dimmable light source (not included)
LED bulb: 11 W / 1.521 lm / 2700K
E27 - E26 / Max. hgt. 160 mm / 6.3"

Includes dimmer (dimnable light source required).
Suitable only for indoor use.
Always use the light source recommended or equivalent.

Input voltage: 100, 120, 230 Vac.
(50 Hz / 60 Hz). According to destination

Regulations:

European version
UNE-EN 60598
UNE-EN 55015
UNE-EN 60529

American version
Dry location only
UL-153
E-352592
